

The **Red Light** Report

from your friend, [Vin DiCarlo](#)

Hey,

I've got a great touching (aka "physical escalation") trick I'm going to show you, in just a second.

I'll show you the in's and out's of: 1) **Why** it works, 2) **How** it works, 3) **Why** you should use it and 4) **When** it's "safe" to use it. In plain English, too. So you don't have to wade through "technical" jargon.

But first, I've got to tell you the story behind this report:

I was coming back from a date with this girl named Anna.

We had some dinner, went back to her place... And well, you know the rest. ;-)

Anyways, after we had sex, I asked her when she decided to sleep with me.

(By the way – Getting a girl's feedback on your "game" RIGHT after you sleep with her is the ultimate tool to getting better with women)

She brought up this one little touching-trick I do, and said it made her feel very "protected and safe."

She said she was attracted to me, but couldn't decide whether I would make a good friend with benefits... Boyfriend... Or even just a friend.

And Anna told me THIS two-second technique pushed her over the edge, to boyfriend land.

Why is this important? Well, two reasons: First, because it means the connection and warmth of a loving relationship... And second...

... **Because now I can sleep with her, whenever I want.**

All I've got to do, in order to see her again, is pick up the phone and call her. No more "attraction game", or trying to "get into her pants."

Just "Hey Anna, it's Vin. We should hang out, I'm bringing over a movie."

I've always done this subconsciously, but I finally realized EXACTLY **why** it works, and **how** you can do it with zero chance of rejection.

At the time, I was about 10 minutes away from home.

And I was already doing 80 mph on the highway.

I had this realization, knew I NEEDED to write it down and slammed on the gas pedal, drove like a NASCAR racer running from the cops, and must've cut off 4-5 other cars and gone through a red light, in the process.

(If you've got a green minivan, and live in Hoboken, New Jersey, I might owe you an apology)

I see my place, and I'm pulling into the garage... Next thing you know, I see red-and-blue lights flashing in my rear-view mirror. I think to myself, "Shit..."

Aaaaaaaaand I got a \$200 ticket. For speeding. To write this down and teach it to you.

Here's me, with my sad face and the ticket:

So now that you understand just how important this technique is... Let's get into the good stuff:

The 'Speeding Ticket Worthy' First-Date Technique

Let's start with **What Does This Technique Do?**

Simply put: This technique will make a girl classify you as a “Boyfriend” or “Fuck-Buddy”, right off the bat.

Most guys start out as a “friend”, and have to be PROMOTED to “boyfriend” or “Friend w/ Benefits.”

And the techniques you need to bust out of the friend zone are – frankly – pretty friggin' tough, if you don't have a ton of experience pulling them off.

(And if you're stuck as a friend, you have to listen to her bitch about how other guys treat her, treat her nicer than any other girls you know, and even drop your plans on a moment's notice to be with her... Without even getting laid. It sucks)

So, I prefer to SKIP the “friend zone”, completely, and this is one of the techniques I use to make it happen.

How Does It Work? Very sneakily ;-)

I'm also going to use this section to explain **The Step-By-Step Technique**, as well, so pay extra close attention:

Girls are hard-wired to react to a “new” touch in a unique way, when compared to men.

She's smaller, weaker and – if she gets raped or pregnant – She has to suffer all the inconveniences of childbirth.

So any “strange”, “surprise” or “jolting” touch is hard-wired to turn her off, extremely quickly.

Imagine if you walked up to a strange girl at a restaurant, and tried to touch her face.

You'll get SLAPPED – at the bare minimum.

But you NEED to touch her, to get her sexually attracted to you.

And the 'first touch' you give her is going to be shocking or surprising, no matter what... Simply because it's the first time you've touched her in an intimate way.

How do you get around this roadblock? Like I said before, veerrry creatively:

When you're on your first date with a girl, grab her hand to cross traffic.

Not like grab her and DRAG her behind you, but say something like:

“Oh, watch out for that car. Here, follow me”

... Then take hold of her hand, and lead her through traffic.

When you're out of the road, let it go. It's a very protective gesture, so it's attractive to her, and will break the touch barrier.

And Here's The REAL Kicker:

The first TWO times you help her across the street, just drop her hand once you cross.

She'll think “Oh, he's helping me cross the street” and it won't be weird at all.

The THIRD time, however, keep on holding her hand.

You've instantly got a comfortable, intimate touch with her (holding hands), and her mind is already programmed to accept it.

She'll be comfortable with your touch, and rationalize her comfort to herself.

Remember how we discovered women who were Uncomfortable with your touch get turned off?

It works in reverse, too – and is why touching a woman correctly is so damn important:

**If You Touch Her In The RIGHT Way,
She'll Tell Herself She MUST Be
Attracted To – And Turned On By – YOU**

Because if she WASN'T... She wouldn't feel comfortable holding your hand.
Follow me? Good. :-)

So WHY Should You Use THIS Technique, In The First Place?

Because being a girl's “friend” SUCKS!

There's nothing worse than really wanting to be intimate with a girl – Whether you're looking for a lover, girlfriend or even just sex – And being stuck on the sidelines, watching her meet other guys.

It's a pain in the ass, and it makes you feel WORSE about yourself for not being the man she “chooses.”

Touching Her In The RIGHT Way DESTROYS Any Chance Of Her Seeing You As “Just A Friend”

And that's why you need to touch her IMMEDIATELY, you need to touch her with the right ENERGY and you need to touch her SEXUALLY. Follow Marni's advice on this one. :-)

If you're hesitant to touch women, and get put in the “creepy” or “friend” zone a lot, you're probably asking:

“But Vin, **When Is This Technique SAFE To Use, Without Rejection?**”

And my answer is: Two Minutes Into Your FIRST Date.

Or even on an insta-date.

Or 30 seconds into your first conversation.

Technically, the answer is: Whenever you get the chance.

Because she won't reject you helping her cross the road – It's a protective and kind gesture – And because she'll become comfortable holding your hand... You really can't miss out.

You can't even “get caught”, because you're just helping her cross the street!

It's a badass technique, and I want you to try it out, ASAP.

Listen, you're a friend of Marni's, so I'd like to give you a whole HOST of brand-new, bad-ass techniques like this one.
