### What Is Myers Briggs?

The Myers-Briggs Type Indicator (MBTI) assessment is a psychometric questionnaire designed to measure psychological preferences in how people perceive the world and make decisions.. These preferences were extrapolated from the typological theories proposed by Carl Gustav Jung and first published in his 1921 book Psychological Types.

OK Cupid, always a great resource for psychological resources, has put together a sequence of FREE tests you can do to test your MBTI

(Personality Type) and then find out what types of women are best for you to date.
